“We get to the shop before the sun comes up

and check our messages on the way in. The orders are coming in at 8AM faster than I can take them so FracTEL automatically routes the overflow to the warehouse. Everyone is on the road by Noon making deliveries so I set the FracTEL auto-attendant to handle calls while we're out. We hosted a FracTEL conference call at 3PM for a big job. I've got the FracTEL app on my smart-phone and my important customer never knew I was at a soccer game. Finished faxing the proposal from my tablet just in time to see Suzy score a goal. **-It's all in a days work.**”

No matter your story...

FracTEL puts business at your command by enabling talk, text, video and fax communication through the cloud so that you can be anywhere your business takes you.

No matter your size...

Big or small, FracTEL's limitless network architecture is designed to get you on the road to success fast, and insures that it's always the right size for your business.

A better tool for business

The advantages are clear

Since 2007, FracTEL customers have saved 40-90% over the cost of traditional phone service. Today, companies can take advantage of even more savings and extended reach by utilizing the cloud connected devices they already own such as PCs, tablets, and smartphones.

Bring Your Own Devices

The FracTEL network keeps you in control of your business at work, at home or on the road. In addition to supporting a wide variety of the worlds finest IP telephones, FracTEL has apps for iOS, Android, Windows and OS X devices that keep your business and personal communications separate. Your team can use the tools they need to do their job and stay connected 24/7.

Always Secure

FracTEL's encrypted network protects your communications so your business stays inside your business. Your team can speak freely and securely.

Always Connected

FracTEL's triple redundant network provides every customer with big business functionality and an exclusive 100% up-time guarantee, giving you the peace of mind that your voice will be heard no matter where you are in the world.
